Call a physician in case of ingestion. Affects the cardiovascular and central nervous systems.

**SKIN CONTACT:** May act as a skin or eye irritant. Phenol is readily absorbed through the skin. May cause sensitization or allergic reaction in susceptible.

**INHALATION:** May cause mild irritation to the nose, throat, and respiratory tract and may result in central nervous system (CNS) depression. High vapor concentrations may result in headache, nausea, weakness, dizziness, incoordination and eventually unconsciousness. Acute poisoning by inhalation contact may lead to death. Not expected during normal use of the product.

**EYE CONTACT:** May cause moderate eye irritation. Vapor and/or liquid causes irritation.

**MEDICAL CONDITIONS AGGRAVATED:** Preexisting eye, skin, and respiratory disorders may be aggravated.
