

IODIDE POWDER

FEEDING INSTRUCTIONS:

FOR HORSES & CATTLE:

Mix 1 ounce thoroughly with ration and feed per head per day. Each ounce provides 10mg. of Ethylenediamine Dihydriodide, the recommended daily allowance.

WARNING:

Because animals vary in susceptibility to iodides, treat animals with caution until tolerance is determined.

INGREDIENTS:

PER POUND:

Ethylenediamine Dihydriodide.....0.152 g

(Equivalent to 10 mg / 30 g)

Dextrose.....q.s.

Ingredients: Dextrose, Sodium Aluminosilicate, Ethylenediamine Dihydriodide (EDDI).

**1 ounce measure enclosed. Close container after each use.
Store in cool, dry place.**
